

# DRUGS and ALCOHOL

By Freya Lambert

# What are Drugs ?

- ◆ There are two different types of drugs, which are the Illegal type of drugs which you should never take and you go to prison for having illegal drugs.
- ◆ There are the Legal types of drugs ,which can help you recover from an illness and these types of drugs you can take and you will not get in trouble for having these.

# LEGAL DRUGS

- ♦ Legal drugs are substances which can help your body recover. These are actually in medicine, cough syrup and in coffee and tea.
- ♦ They are only legal if your doctors prescribe them to you if not they are illegal and can make you very ill.

CC BY-SA

# Illegal Drugs

- These types of drugs are dangerous! Illegal drugs are taken by choice which will have a huge affect on your body and can make you very ill are you can even die for taking too many illegal drugs.
- These types of drugs are called Heroin, Cocaine, Ecstasy which is a pill and last of all Cannabis.
- You should never take these unless you want to got to prison and be ill

# ALCOHOL

- Alcohol is a legal drug which you can drink but there are some rules which you must follow.
- 1. Children should never drink alcohol unless it is used in medicine to make them better
- 2. It is not recommended to drink under the age of 15
- 3. An adult must buy alcohol for 16 or 17 year olds if they want it with the meal
- 4. Only if your 18 and above you can buy alcohol
- 5. You should never drink alcohol and drive because you will kill someone or you will cause a terrible accident which will effect other people.

# WHAT HAVE YOU LEARNT?

- ◆ We have learnt that you should never take illegal drugs , as there will always be consequences, for example death.
- ◆ Legal drugs should only be prescribed by your Doctor, who will know your medical history.
- ◆ Alcohol should only be taken by a person over the legal age of 18 years old.
- ◆ Never drink and drive, as your judgement of the road will be clouded.
