

Tuesday 30th June 2020 Magic spell

Nathan Mwaba

Add a few mls of water,

Not too much,

Not too little

The rain pouring down as fast as a cheetah. Terrible weather

To one unit ammonia and you'd

Better be sure to spin four or

Five times and pipette just twice.

The thunder roaring like a tiger. Terrible weather

Wait one more time – yes just like that. That's right

The lightning striking through the expensive glass. Terrible weather

And then hum the beginning of the tune.

Screw on the lid tightly.

The hail falling on the concrete making a pita-pata .

Hold in your breath and flip out the light

And hope, hope, hope your experiment comes out just right.

The wind howling like a wolf. Terrible weather
