

LO: I can solve one-step problems that involve addition and subtraction

1. Spongebob ate 19 Krabby Patties and Patrick ate 17. How many did they eat altogether?

2. Luke Skywalker bought 13 lightsabres on Tuesday and 28 more on Wednesday. How many does he have altogether?

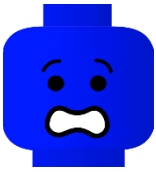

3. Mehdi bought 44 Minion toys and gave 15 to Kelly. How many Minions does Mehdi have left?

4. Ninette had 82 sweets and then Joshua gave her 10 more. How many sweets does Ninette have now?

5. Taliyah had 90 Match Attax cards but she left 28 on the bus. How many cards does she have left?

6. Nicole had 59 pieces of lego. She needed 19 more pieces to make a lego house. Many pieces did she need altogether?

7. 77 tigers are sleeping by the river. 28 tigers wake up and leave to find some food. How many tigers are left?

Challenge: two step problems

8. Hayden had 15 loom bands, Nicholas had 9 and Aisosa had 5. How many loom bands did they have altogether?

9. Nariah had 52 lollies. He gave 10 to Luca and 3 to Miss Stevenson. How many lollies did he have left?
